

VIVEK TRIVEDI

+1-773-682-9835 @ vivtri2@gmail.com www.linkedin.com/in/Vivek-Trivedi/

SKILLS

Cloud & Data Platform

AWS (Bedrock, Lambda, SageMaker, S3, Glue, Athena, QuickSight, Cloudformation); Databricks; Snowflake; Azure

Programming Languages and Libraries

Python (TensorFlow, Pandas, NumPy, Scikit-learn, Matplotlib, Flask, Django, Plotly, SciPy, Requests), TypeScript, Scala, R, Bash/Shell

Database and Data Management

SQL, Snowflake, NoSQL (MongoDB), Big Data, Data Mining, DBMS, GQL

Artificial Intelligence and Analytics

PySpark, MLOps (AWS CloudWatch), GenAI (RAG, Prompt Orchestration), TensorFlow, Scikit-learn, Pandas, IBM SPSS Modeler (K-Means Clustering, Logistic and Linear Regression, Decision Trees)

Software Development and Operations

CI/CD (Jenkins, Github Actions), DevOps, Agile (Scrum/Kanban), SDLC, Github, Integration Tools (Postman, Apigee, SSIS, Zapier)

Process Management

Apache Airflow, MLflow (Databricks), Notebook Orchestration, Connectors

CERTIFICATIONS

 **NVIDIA-Certified Associate: AI Infrastructure and Operations**
NVIDIA / June 2025

 **AWS Certified Solutions Architect - Associate SAA-C03**
Amazon Web Services (AWS) / March 2024

 **Databricks Certified Associate Developer for Apache Spark 3.0 Scala**
Databricks / February 2021

 **IBM AI Foundation for Business**
International Business Machines (IBM) / September 2020

EXPERIENCE

Backend Engineer

Virginia Department of Behavioral Health and Developmental Services - Evidence Based Practices

01/2025 - 04/2025 Richmond, VA

- Built and maintained backend API services that improved reliability and code quality for behavioral health applications, enabling seamless integration with existing client systems.
- Translated complex frontend logic into robust backend workflows, enhancing maintainability and reducing response times for critical user actions.
- Streamlined API testing and integration, accelerating development cycles and reducing debugging time by leveraging modern tools and automation best practices.

Big Data/Machine Learning Architect - Sr

Capital One

07/2024 - 12/2024 McLean, VA

- Ensured high data integrity across multi-vendor pipelines, driving consistent machine learning outcomes and reducing operational risk for the Enterprise Systems Management team.
- Developed secure, production-ready ML workflows, embedding automated data validation and CI/CD practices that accelerated model deployment and reduced downtime.
- Launched real-time analytics dashboards using AWS QuickSight, delivering actionable insights for business stakeholders and enabling faster data-driven decisions.

Data Engineer

Deven Transport

05/2023 - 10/2023 Elk Grove Village, IL

- Automated real-time vehicle tracking and predictive maintenance using cloud-native ETL pipelines, reducing equipment downtime and optimizing fleet operations.
- Delivered forecasting dashboards and alerts for maintenance events, empowering teams to make proactive decisions and extend asset lifespan.

Data Engineer

Beghou Consulting

04/2021 - 04/2023 Evanston, IL

- Scaled infrastructure deployment with infrastructure-as-code, improving system reliability and reducing manual intervention for ongoing enhancements.
- Engineered and delivered scalable, HIPAA-compliant data solutions for pharmaceutical clients, enabling timely, accurate reporting while ensuring regulatory compliance.
- Led the migration to cloud-based ETL pipelines, improving batch and near real-time data processing and supporting critical client analytics workflows.

Business Intelligence Analyst / Report Analyst

Unifin Inc

10/2019 - 03/2021 Niles, IL

- Implemented comprehensive security monitoring and risk mitigation protocols, safeguarding sensitive data and ensuring system integrity across multiple projects.

EDUCATION

Master of Science in Information Systems Management

Loyola University Chicago Quinlan School of Business

2019 - 2020

Bachelor of Science in Psychology

University of Illinois Urbana-Champaign

2013 - 2016
